

• PITCH DECK

Wall Street works for Wall Street. Not for you.

DeepValues.AI is an AI-native financial assistant that works only for individual investors — putting institutional-grade stock analysis in their hands.

Retail investors don't have an analyst. They have a casino.

INTERNAL, 2025

Trading apps profit when you trade. Bloomberg costs \$24K. Nobody is working for the individual investor.

• WHY NOW

For the first time, an AI can read the whole market.

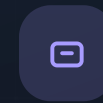

10-K-scale context

A full 10-K in a single LLM pass.

Cited reasoning

Every claim sourced to a filing.

Cheap video

60-sec reports at <\$0.40 each.

Trust collapse

Retail is shopping for the un-Robinhood.

• THE SOLUTION

An analyst that **only** works for you.

- **100% subscription.** Aligned by design.
- **Cited answers.** Every claim sourced.
- **Bloomberg-grade** at \$15/month.
